

Samsung OfficeServ 7000 Series Voicemail Auto Play of Message Information

By default, your voicemail system is set up to automatically play the message header information when you access a voicemail message. This includes the date and time of the message and the caller id if available.

Some customers find that they do not want to hear this information.

It can be turned on/off by doing the following from within your mailbox

1. Access your voicemail and enter your password.
2. Press 6 to go to Mailbox Administration
3. Press 6 to turn off Auto Play of Message Information, or turn it back on if it's already off
